

Northfield Mountain Trail Distances

- All distances were taken with a surveyor’s wheel which measures to 1 foot with good reproducibility.
- Measurements between intersections were made to the centers of trail crossings. In the case of three-way “Y” intersections, readings were taken at the numbered signpost closest to the midpoint.
- Tooleybush Turnpike, Reservoir Road, and Tenth Mountain Division distances were measured from the Tenth Mountain Division Trail behind the Visitor Center (VC), between the “Tenth Mountain” sign and the large trail map board.
- Lengths of trail sections may not add up to the overall trail length due to accumulated errors and rounding. The difference may amount to as much as ± 0.02 miles. This is a 0.8% error on a 2.5 mile trail.
- If more precise distances are critical to you, you will need to measure the route yourself.
- We have not yet measured foot trails or the ski trails off Fuller’s Pasture.
- Measurements in and near Fuller’s Pasture (northwest corner of the mountain) are subject to some uncertainty because of the difficulty of locating ski trails without snow on the ground.
- Signage near the Chocolate Pot on Hemlock Hill Trail can be misleading or confusing. The intersections of Hemlock Hill with Rock Oak Ramble and Sugarbush are not well marked.
- Measurements were made summer 2003 after the security fence was installed.

Some Trail Distances to the Summit from the Visitor Center

Reservoir Road	3.10 mi
Tenth Mountain	2.59 mi
Tooleybush Turnpike	3.56 mi
Jug End – Rock Oak Ramble – Hill ‘n Dale – Tenth Mountain – Summit	2.46 mi
Tenth Mountain – Rock Oak Ramble – Hill ‘n Dale – Tenth Mountain – Summit	2.40 mi
Tenth Mountain – Hemlock Hill – Rock Oak Ramble – Hill ‘n Dale – Tenth Mountain – Summit	2.20 mi

Tooleybush Turnpike – Hemlock Hill – Sidewinder – Hill ‘n Dale – Tenth Mountain – Summit	3.64 mi
Jug End – Tenth Mountain – 32 – Tooleybush – 17 – Sugarbush – Hemlock Hill – 19 – Sidewinder – 22 – 16 – 10 – Jug End	9.00 mi
